

ZENIT

Design by: **Studio Mist-O**

The main idea is create a product that works both outdoor and indoor, not just changing the finishes, materials or fabrics, but most of all it could have a shared language between these two worlds; an informal and light appearance, but without sacrificing both visual and physical comfort typical of indoor products.

Technical information

Frame: Stainless steel frame painted with powder or with micro-shot peening for outdoor use.

Seat cushion padding: Variable-density polyurethane foam padding and waterrepellent, eco-friendly viscose fiber. To provide greater protection from water and moisture for the padding, all the cushions are covered in water-repellent polyester fabric. All the accessories – hinges, yarn – are waterproof and therefore suitable for outdoor use.

Cover: Leather or Fabric - outdoor & indoor environment.
